

January 21, 1941

Mr. Ervin Hoyt
Orderville, Utah

Dear Mr. Hoyt: REL: LONG VALLEY DISTRIBUTION

This will acknowledge receipt of your letter of January 14, 1941, giving the time spent in measuring the waters of Long Valley Distribution system and showing that \$49.10 is due you for this work.

In my letter of June 28, 1940, appointing you as Water Commissioner, it was set out that "The compensation for said service will be paid to you directly by the water users without recourse whatsoever to the State Engineer", therefore, you should present your statement to the Glendale, Orderville and Mt. Carmel Irrigation Companies, a majority of the water users recommending your appointment. A copy of my letter of June 28, 1940, is enclosed.

Yours very truly,

T. H. Humpherys
STATE ENGINEER

1c
Enclosure.
